Professional Summary

Master of Computer Science graduate from the University of Adelaide with over five years of university teaching experience and local experience in Canvas support, technical troubleshooting and course migration. I build reliable software and evaluate AI systems using Python, data analysis and responsive web technologies. I am seeking software development, applied AI and machine learning roles where I can contribute technical judgement, clear communication and collaborative delivery.

Education

Feb 2024 – Dec 2025 **Master of Computer Science**

The University of Adelaide

Jan 2014 – Dec 2017 **Bachelor of Computer Science**

Brac University, Bangladesh
GPA 3.9 on a scale of 4.0

Key Skills & Certifications

Technical Skills

Python | Pandas | Machine Learning (scikit-learn) | AI Application Development | Multi-Agent AI Systems | Data Analysis | Data Visualisation (Matplotlib) | Microsoft Excel | Responsive Web Development | Git and GitHub | Technical Troubleshooting | Canvas (MyUni) Support and Content Migration | Content Quality Assurance | Technical Documentation | Jira | Confluence | Agile Workflows

Certifications

- Standard Mental Health First Aider (Nov 2024 – present)
- Career Readiness – Essential Skills for International Students (issued by StudyAdelaide on May 25, 2026)
- Working With Children Check (WWCC) (Apr 2024 – Apr 2029)
- Global IQ Connect – The University of Adelaide (14 June 2024)
- Career Access Mentoring – The University of Adelaide (Aug 2026 – Present)

Work Experiences

Apr 2025 – Nov 2025 **Course Builder, Integration Management Office**
The University of Adelaide

- Supported the migration of Adelaide University courses from existing platforms, ensuring the content is equivalent in functionality in the new platform/s.
- Edited and/or redeveloped existing learning resources for new Adelaide University courses within the learning management system (Canvas).
- Assisted with the migration and updating of course assets, such as H5P activities, LinkedIn Learning embeddings, and media files.
- Maintained clear and effective communication with all internal stakeholders throughout the development lifecycle.

Oct 2024 – Mar 2025 **Learning Enhancement Officer, Learning Enhancement & Innovation**
The University of Adelaide

- Supported instructors and students in the use of MyUni and related systems via phone, email, and in-person support channels.
- Continuous learning and skill development in MyUni and related systems.
- Used Jira to manage work items, update documentation, and contribute to team workflows within an Agile environment.
- Maintained project documentation and knowledge resources to support service delivery and continuous improvement

May 2018 – Jan 2024 **Lecturer, Department of Computer Science and Engineering**
BRAC University, Bangladesh

- Delivered undergraduate Computer Science lectures to classes of 40+ students from diverse backgrounds through face-to-face and online learning environments.
- Designed learning materials, assessments and academic support resources.
- Managed the Compiler Design course through BRAC University's LMS (buX), including uploading course materials and lecture recordings, running online assessments and classes, and supporting approximately 300 students as Course Coordinator.

Oct 2016 – Dec 2017 **Student Tutor, Department of Computer Science and Engineering**
BRAC University, Bangladesh

- Tutored undergraduate students.

Selected Technical Projects

- **CouncilQ:** Developed an AI-powered assistant that helps users find and understand City of Adelaide council policies through natural-language questions.
- **Agentic Coach:** AI-powered learning assistant developed using a multi-agent architecture to support personalised learning, educational planning and workflow automation**.**
- **Emotion-Based Music Recommendation System:** Machine learning recommendation system using Python and data analysis

GitHub Portfolio: https://github.com/Ramisa1231.

Community Involvement

Apr 2026 – Nov 2026 **Web Developer**
Saroni Roy Foundation

- Corrected mobile and tablet navigation using React, TypeScript and Tailwind CSS through merged GitHub Pull Request #32; verified behaviour across eight viewport widths, with targeted ESLint validation and the production build passing. Portfolio case study

Dec 2025 – Present **AIML Volunteer**
The University of Adelaide

- Volunteered at the *DICTA 2025 conference* in Dec 2025 and the *Robotics for Good Youth Challenge* in March 2026

Jan 2024 – Dec 2025 **Volunteer, Children's University**
The University of Adelaide

- Managed the '*Wonderverse*' event in 2024, which won the *Volunteer Project of the Year Award* and the *'Quiz Night'* event for charity in May, 2025.

Apr 2025 – Dec 2025 **Community Volunteer**
The University of Adelaide

- Volunteered in the 2025 graduation ceremony in May, where I handed out information bags to new graduates once they received their parchment and assembled information bags.

Oct 2024 – Nov 2025 **Postgraduate Representative**
The University of Adelaide

- Managed events and workshops (LaTeX workshop, Women in STEM event, etc.) and assisted the CS club community and committee in person and on Discord.

Oct 2024 – Mar 2025 **Event Manager, Competitive Programming Club**
The University of Adelaide

- Coordinated coding competitions and educational workshops, including LaTeX training sessions and the RSP × CPC Coding Challenge.

Sep 2023 – Feb 2024 **Logistics Volunteer, Bangladesh Girls' Mathematics Olympiad**
BRAC University

- Arranged student volunteers at the Bangladesh Girls' Mathematics Olympiad (BGMO) held at BRAC University on 22 September 2023. Additionally, I was responsible for event management and invigilation.

Publications

- *Secure Data Transaction and Data Analysis of IoT Devices Using Blockchain* (IEEE)
- *Smart Garden Automated and Real-Time Plant Watering and Lighting System with Security Features* (IEEE)
